

## Survey for farmers in the Little Scioto, Mud Run, or Olentangy Watersheds

-Answer questions in the table below, use backside if needed for comments-

1. Would you be willing to attend field days or workshops discussing cover crops, soil health, and/or water quality? ---If so, do you prefer day or evening sessions?
2. Would you be interested in implementing cover crops?
3. Would you be interested in practicing no-till or strip-till corn?
4. Would you be interested in improving nutrient management practices such as:
  - a) In-row fertilization
  - b) Variable rate application
  - c) Tissue testing?
5. Would you be interested in planting trees for timber, recreation, or windbreak use?
6. Would you be interested in grass filter strips along streams or ditches?
7. What is a concern on your farming operation that may or may not have already been mentioned that you feel our office can assist with?
